COURTS CONVEVE:

Circuit Court—First Monday in February, June and October.

Chancery Court—First Tuesday after fourth Monday in February and first Tuesday after first Monday in August.

Wednesday, Dec. 8, 1915.

The democratic national convention has been called to meet Wednesday, June 14, 1916, in St. Louis, to choose candidates for president and vice-president.

In spite of a recent declaration by the president of China that the republic would remain and that no dynasty would be established, the present president, Yuan Shi Kai, has accepted the tender of the Chinese throne and will hereafter rule as emperor. He says he will continue to act as president until a convenient time for the coronation.

The English and French are making light of the successes of the central powers in the Balkans by saying that the more they conquer the longer line of defense they will have to maintain and thus become weaker.

That is like one boy running the other down in a fight by working in the lead. Any person or nation would rather be the chaser than the chased.

No person is so poor that they cannot find some one who is in worse condition than themselves. That being the case no one need feel that there is no unfortunate person they are able to help in some way at the blessed Yuletide that will be with us in a few days. Look around and see how quickly you can find some one you can help. It will make you feel better for helping others and this Christmas will be brighter and sweeter for your having contributed to the pleasure of some less fortunate person than yourself.

If former Governor M. R. Patterson is nominated for the United States senate today by the democrats of the state, we can see no reason for any man to take heed to his conduct in order to be respected and elected to office. All that would seem necessary for him is to profess religion at the opportune time and then ask the people to vote for him. If he wins today it will be a terrible lesson to hold up before the youth of the state.

We predict he will go down in defeat by not less than 10,000 and if it is more we shall not be surprised. As a rebuke the majority should be fifty thousand.

President Wilson has hit the key note that will tend to bring into closer and more pleasant business relations all the countries of the western hemisphere in declaring that the Monroe Doctrine of today means that all the governments of the western world should join for mutual protection and suffer no aggression from any eastern or European powers.

That is covering lots of ground, but it is in line with the utterances of former President Roosevelt and many other leading men. It means that our responsibilities will not be increased nearly so much as will our power to defend. All the South American countries are pleased with the idea and are at last beginning to understand that Monroe Doctrine talk does not mean the protection of other countries that would mean ruling them. It simply means to unite the forces of the western hemisphere against any and all comers from any other part of the world that may seek to acquire territory.

In spite of all that may be said of the unwarranted destruction of Belgium by Germany, there is another case that is a clear parallel it now seems, save only that the destruction has not yet

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

actually been wrought. It is in the case of Greece.

The allied powers are demanding that Greece give them free passage through their country with troops in all ways the allies may require and at the same time Greece must lend all possible aid with her railroads. Greece has been begging to be allowed to remain neutral, but the allies will not permit it.

It simply means this: The central powers will surely take the same liberties in Greece that the allies do, provided they find it expedient to do so. There seems not to be very slight hope that Greece will escape being the battle ground between the contending forces. Greece will not throw her armies in with the cause of either of the belligerents and for that reason she will be spared to some extent, but for Greece to be the battle ground for the contending forces can mean nothing short of appalling destruction of property and should they side with either the loss of human life would probably be equal to, or greater than, in Belgium.

All this talk of regarding the rights of others is utterly meaningless, unless the offended power is able to force proper consideration. At this time there is no nation in the world that can, or is willing, to protect its rights by going to war.

Europe is a maelstrom of blood and slaughter and no other nation is willing to add to the present carnage or bring a like condition home. There is much consolation in that after all.

OBJECTS OF CHARITY.

Space and copies of his paper go to make up the newspaper man's stock in trade. These two are what he has to offer for sale to the public, and no one has as yet given any sort of satisfactory reasons why he should ever be asked by anyone to donate them.

One thing newspaper people will never be able to understand is, why any person will walk into a newspaper office and make himself or herself an object of charity and insist upon what they would disdain to ask for in any other shop or place of business in the town. The principle is the same in the newspaper office as in the dry goods store, the grocery, the drug store, and what a great many people need is to recognize it as the same and get off the newspaper list.

Advertising space in the newspaper is for sale, not to give away. It has a certain value in itself that makes it worth money. Copies of the newspaper are for sale—not to give away. If they are worth having, they are worth the exceedingly small price asked for them.

The public, or at least a large portion of it, has some very erroneous ideas about these matters, and it is but just to the newspaper folk that their ideas be corrected in accordance with the same business principles that prevail in all other business establishments.

In a vast majority of cases this generous charity on the part of the newspaper is blissfully taken for granted, and the paper's liberality is abused. That which is purely a favor is accepted as a matter of course, and what should be requests are couched as demands.

When the courtesy has been performed there is rarely appreciation and

The result in many other towns and cities is that a ban has been put upon all free publicity, no matter what its object—even upon church notices. In these cities such favors as the press bestows are properly appreciated and valued.—The Fourth Estate.

CLIFTY

Miss Myrtle Asbburn, who has been teaching at Stringtown the past fall, spent the week end with kintolks.

Dr. Johnson, of Monterey, is spending several days in Clifty this week and is kept busy renewing teeth preparatory to carving the festive turkey.

N. E. Jackson and family of Clifty last week to make their future abode at Crossville. We regret very much the loss of these good people from our community, but realize that Clifty's loss is Crossville's gain, and commend them to the good people of your town.

Charlie Jackson, of Crossville, spent one day last week visiting among old friends.

Dr. Young has succeeded in landing the Nashville, Chattanooga & St. Louis railway demonstration farm for Clifty. This will mean a great advantage for this section and your correspondent will go more fully into the matter later when more definite arrangements have been made.

Last Tuesday the newspaper dis-

patches carried accounts of earthquake shocks felt over Tennessee and adjoining states, but we believe that it was merely shocks felt from the blasts made by the people of White county blowing out the right-of-way for the Memphis to Bristol highway between Ravenscroft and Pleasant Hill. There were over twelve hundred men from all parts of the county, and Clifty turned out over one hundred of that amount. The highway will run within four or five miles of Clifty, and it will be necessary for us to build several miles of road if we are to receive any benefit from this work, but when it comes to public spiritedness, you can always count on the people of Clifty to do their part.

Dr. J. R. Gott, our local physician, gave a very interesting and instructive lecture on the vital statistic report of White county for the year 1914, and pointed out where a great number of deaths could have been prevented had the proper measures for prevention been taken.

The good people of our town are fast getting the Christmas spirit, and are preparing for a "hog and hominy" time this year. As is the custom every year, the children will be bountifully provided with toys, candies and fruits, and from what the donations coming in indicate, there will be more this season than ever.

Dec. 13. Clifty Spirit.

DR. BELL'S PINE-TAR-HONEY.
For your cold, for your cough, for your feverish throat, nose and head, use Dr. Bell's Pine-Tar-Honey. Honey soothes the irritation, Pine-Tar cuts the phlegm, thus relieving congestion. Pine-Tar also acts as an antiseptic, as a result general relief follows. Breathing becomes easier and further inflammation is arrested. Insist on Dr. Bell's Pine-Tar-Honey. It is an ideal treatment. Price 25c. 3.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.
